

Truckman's Choice™

FIRE RESCUE SAWS

Professional Grade Powerheads: Using professional-level 71cc & 88cc powerheads built by Husqvarna®, these engines are the ideal combination of high power and low weight. They have exceptional high torque, over a wide rpm range. Combined with the West Coast Filter & Velocity Stack, our engines will run longer in the heat and smoke and give you 10% more power than the stock Husqvarna® chainsaw.

Bullet Raker Carbide Tipped Ventilation Chain: Protects the specially designed carbide cutter with a raker shaped like a bullet. Combined with a narrow gullet, this design increases durability and safety over traditional wide gullet chains. (Single and Dual Raker Carbide Chains available.)

Solid Steel Alloy Guide Bar: High strength alloy solid steel with flame hardened chain rails, forged for extreme cutting conditions.

One-Step Starting: Simple & Reliable starting procedure for today's firefighters.

Full-Wrap Handle: Allows the operator to cut safer in more positions. It also functions as a chain catcher.

Srench Tool: Multi-Tool mounted right on the saw to remove the spark plug and adjust the chain.

Depth Guard (Optional)

Fully extended, the Guard completely covers the bar & chain. Once you are in position you can adjust your depth to prevent from cutting any deeper than necessary. This guard removes quickly without any tools.

All saws include a 2-year warranty.

Carbide Tipped Chains

Bullet Raker

- The Bullet Raker Carbide -Tipped Chain protects the specially designed carbide cutter with a raker shaped like a bullet. Combined with a narrow gullet, this design increases durability and safety over traditional wide gullet chains.
- Great durability on multi layer roof decks and lightweight sheet metals.
- Ultra-Low Kickback (Certified Test Results, ISO9518 by SMP)
- Economical to repair.

Roof Ventilation: A

Demolition Rating: A

Wood Rating: C-

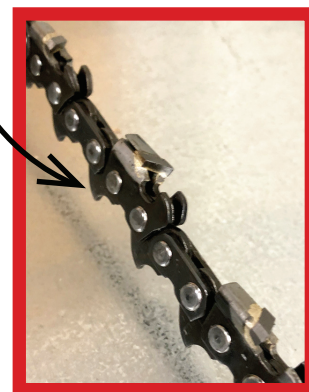

Dual Raker

- The Dual Raker Carbide -Tipped Chain combines two raker gauges and a solid carbide cutter to improve impact resistance over single raker carbide-tipped chains.
- Good chain for cutting wood and other lightweight building materials.
- Good durability on multi-layer roof decks and lightweight sheet metals.

Roof Ventilation: B

Demolition Rating: B

Wood Rating: B

Single Raker

- The Single Raker Carbide -Tipped Chain is our fastest cutting carbide-tipped chain.
- Best chain for cutting wood and other lightweight building materials.
- Good durability on single layer roof decks.
- Economical to repair, this chain can be sharpened up to 3 more times than standard carbide chains.

Roof Ventilation: C

Demolition Rating: B

Wood Rating: A

Our Story

As a former Cutters Edge® East Coast service center with over 20 years of experience, we know what it takes to provide you with the equipment and service you have come to expect. We will uphold that standard.

Truckman's Choice™ Fire-Rescue Chainsaws are built with the same quality and precision that you have come to expect and rely on.

Compare our saws to the ones you already have in service. We know you'll be satisfied. If you are a new customer, then get ready to own the saw that started it all and still today has more modifications than any other ventilation saw on the market.

Cutters Edge is a registered trademark of Edge Industries. Truckman's Choice and Eastern Fire Equipment Services are not associated with either Cutters Edge or Edge Industries.

Truckman's Choice™
FIRE RESCUE SAWS

Truckman's Choice™ Fire Rescue Saw Specifications - Model 7100TC/9000TC

ENGINE

TYPE: Single-cylinder 2-cycle
DISPLACEMENT: 7100TC: 4.3 cu.in. (70.7cc)
9000TC: 5.36 cu.in. (87.9 cc)
CYLINDER MATERIAL: Chrome Bore
MAX ENGINE SPEED: 13,500 RPM No load
HORSEPOWER: 7100TC: 6.24hp/4.59kW
9000TC: 7.15 hp/5.26 kW

IGNITION SYSTEM

TYPE: Max Logic, One piece modular Electronic
SPARK PLUG: NGKBP7A
GAP: 0.020 in. 10.5mm)

STARTING SYSTEM

TYPE: "One Step" with Compression release valve and large D- Handle.
SPARK PLUG: NGKBP7A
GAP: 0.020 in. 10.5mm)

AIR FILTRATION

TYPE: 4-stage external air filter/ Prewrap
SYSTEM: "West Coast Filter" - Velocity Stack

FUEL & 2 CYCLE OIL MIX

TYPE: Gasoline
GASOLINE OCTANE RATING: Use 87 octane or higher
FUEL MIX RATIO: Petroleum based: 2-cycle oil use: 50:1
Synthetic: Follow manufacturer's guidelines
FUEL TANK CAPACITY: 26.8 fl.oz. (0.77 liters)

DRIVE SYSTEM

TYPE: Centrifugal Clutch
STYLE: Radially ported, free floating sprocket
CHAIN SPEED: No load chain speed 121.6 FPS (feet per second)
37.06 m/sec (meters per second)

GUIDE BAR

TYPE: Sprocket Nose
MATERIAL: High Strength Solid Steel Alloy
CUTTING LENGTHS: 12" (30.48cm) | 16" (40.64cm)
20" (50.80cm) | 24" (60.96cm)
SIZE: .404 Pitch .063 Gauge

CARBIDE CHAIN

TYPE: Bullet Raker
SIZE: .404 Pitch .063 Gauge
OPTIONAL CHAINS: DUAL RAKER Carbide-Tipped
SINGLE RAKER Carbide-Tipped

CHAIN LUBRICATION SYSTEM

TYPE: Fully automatic, adjustable
LUBRICANT: Use High Quality Bar & Chain Oil w/ High Tack properties
OIL TANK CAPACITY: 14.24fl.oz. (0.42liters)

HANDLES

TYPE: Full Wrap

GUARD PLATE

TYPE: Aluminum

DEPTH GUARD (Optional)

TYPE: Tool-Less, Completely covers the bar & chain
MATERIAL: Aluminum
DEPTH OF CUT: 6 inches- 16" Bar | 8 inches- 20" Bar
10 inches- 24" Bar (9000TC only)

WEIGHTS

7100TC POWERHEAD ONLY: 15.65 lbs (7.10kg) (No Oil & Gas)
Add 1.85 lbs (.84 kg) for Oil & Gas

12"	16"	20"	D16	D20
18.15	18.7	19.40	20.90	21.95 (pounds)

9000TC POWERHEAD ONLY: 16.65 lbs (7.6 kg) (No Oil & Gas)
Add 1.85 lbs (.8 kg) for Oil & Gas

12"	16"	20"	24"	D16	D20	D24
19.9	20.55	21.25	21.84	22.75	23.85	24.80 (pounds)

STANDARD ACCESSORIES INCLUDED: "Srench" Tool, Tool Kit, Manual, Bar & Chain Oil, 2-cycle Oil
